Formal Request for Oregon Community Solar Pre-Application Report

Pursuant to Public Utility Commission of Oregon Order 19-392, a potential Community Solar Project Manager may provide identifying information in order for Idaho Power to complete a Pre-Application Report. The Community Solar Project Manager must also provide a non-refundable fee of \$300 to Idaho Power to complete the formal request, unless they have certified with the Community Solar Program Administrator as a non-profit or governmental based program manager. A certified non-profit or community-based project manager must provide the Program Administrator documentation demonstrating the certification, and then may receive up to five reports at no cost. Interconnection Customer to send request and funds to:

Idaho Power Company
 Attn: Load Serving Operations
 1221 W. Idaho St.
 Boise, ID 83702
