2021 IRP Portfolios

Bridger Units 1 & 2 Natural Gas Conversion: Key IRP Assumptions

The units can either be converted to natural gas as soon as 2024–2027 (ongoing O&M modeled)

Or the units will be exited by year-end 2023-2026 (accelerated depreciation costs modeled)

BRIDGER

Bridger Units 1 & 2 Natural Gas Conversion: Key IRP Assumptions Continued

- Aligned with PacifiCorp 2021 IRP cost and operating assumptions
 - Nameplate capacity
 - Heat rate
- If Selected, 2034 depreciable life for Units 1 & 2 natural gas conversions
 - Same depreciable life as Bridger coal units

Thank you!
