

Customer Generation Application – Wind, Hydro, Other Projects

This application is an interconnection request for existing Idaho Power customers who wish to install renewable generation systems including wind, hydro, biomass and fuel cell technologies. Upon receipt of the application and fee, Idaho Power will review the project and determine if any upgrades to the electrical grid are needed. If no upgrades are needed, customer will receive an approval to proceed. Application and fee expire one year after review date. Visit www.idahopower.com/CustomerGeneration for Idaho Power’s tariff schedules, interconnection and credit transfer eligibility requirements.

All customer generation systems must satisfy the requirements of Schedule 72, Interconnections to Non-Utility Generation of Idaho Power’s Tariff. Upon completion of the interconnection process, customers will take service under one of the following schedules in Idaho Power’s Tariff:

- Idaho Residential customers - Schedule 06, Residential Service On-Site Generation
- Idaho Small General Service customers - Schedule 08, Small General Service On-Site Generation
- All Oregon customers, and Idaho Large Commercial, Irrigation and Industrial customers - Schedule 84, Customer Energy Production/Net Metering Service
