of	, ("Interconnection Customer,")
and	, aexisting under the
laws of	the State of, ("Transmission Provider").
	RECITALS
Facility the Inte	WHEREAS, Interconnection Customer is proposing to develop a Large Generating or generating capacity addition to an existing Generating Facility consistent with reconnection Request submitted by Interconnection Customer dated; and
	WHEREAS, Interconnection Customer desires to interconnect the Large ting Facility with the Transmission System;
perform	WHEREAS, Interconnection Customer has requested Transmission Provider to a Cluster Study to assess the impact of interconnecting the Large Generating to the Transmission System, and of any Affected Systems;
	NOW, THEREFORE, in consideration of and subject to the mutual covenants ed herein the Parties agreed as follows:
1.0	When used in this Agreement, with initial capitalization, the terms specified shall have the meanings indicated in Transmission Provider's FERC-approved LGIP.

3.0 The scope of the Cluster Study shall be subject to the assumptions set forth in Attachment A to this Agreement.

2.0 Interconnection Customer elects and Transmission Provider shall cause to be

with the Tariff.

performed a Cluster Study consistent with Section 7.0 of this LGIP in accordance

4.0 The Cluster Study will be based upon the technical information provided by Interconnection Customer in the Interconnection Request, subject to any

modifications in accordance with Section 4.4 of the LGIP. Transmission Provider reserves the right to request additional technical information from Interconnection Customer as may reasonably become necessary consistent with Good Utility Practice during the course of the Cluster Study.

- 5.0 The Cluster Study Report shall provide the following information:
  - identification of any circuit breaker short circuit capability limits exceeded as a result of the interconnection;
  - identification of any thermal overload or voltage limit violations resulting from the interconnection;
  - identification of any instability or inadequately damped response to system disturbances resulting from the interconnection and
  - description and non-binding, good faith estimated cost of facilities required to interconnect the Large Generating Facility to the Transmission System and to address the identified short circuit, instability, and power flow issues.
- 6.0 Transmission Provider's good faith estimate for the time of completion of the Cluster Study is 150 Calendar Days.
  - Upon receipt of the Cluster Study Report, Transmission Provider shall charge and Interconnection Customer shall pay its share of the actual costs of the Cluster Study, consistent with Section 13.3 of the LGIP.
  - Any difference between the deposit and the actual cost of the study shall be paid by or refunded to Interconnection Customer, as appropriate.
- 7.0 Miscellaneous. The Cluster Study Agreement shall include standard miscellaneous terms including, but not limited to, indemnities, representations, disclaimers, warranties, governing law, amendment, execution, waiver, enforceability and assignment, that reflect best practices in the electric industry, that are consistent with regional practices, Applicable Laws and Regulations and the organizational nature of each Party. All of these provisions, to the extent practicable, shall be consistent with the provisions of the LGIP and the LGIA.

**IN WITNESS THEREOF,** the Parties have caused this Agreement to be duly executed by their duly authorized officers or agents on the day and year first above written.

## Attachment A To Appendix 2 Cluster Study Agreement

## ASSUMPTIONS USED IN CONDUCTING THE CLUSTER STUDY

The Cluster Study will be based upon the technical information provided by	
Interconnection Customer in the Interconnection Request, subject to any modifications	in
accordance with Section 4.4 of the LGIP, and the following assumptions:	

Designation of Point of Interconnection and configuration to be studied.

[Above assumptions to be completed by Interconnection Customer and other assumptions to be provided by Interconnection Customer and Transmission Provider]

Effective Date: 1/1/2024 - Docket #: ER24-10-000 - Page 429
