

2026 Incentives

AGRICULTURE

The Idaho Power Agriculture Program is provided by Idaho Power. The tables below outline minimum efficiency requirements for Agriculture incentives with details as follows:

- Incentives are listed as \$/unit.
- Customers purchasing qualifying Agriculture systems must have a valid commercial service account with Idaho Power.
- No equipment quantity limit for commercial customers.
- Replacement Equipment: new equipment that replaces existing equipment.
- New Equipment: new equipment that is not replacing existing equipment.

Dairy

Equipment Type	Project Type	Eligibility	Pass-through Incentive (\$/unit)
Dairy Well Water Pre-Cooler	New Equipment and Replacement Equipment	Eligible equipment will involve installing a heat exchanger to decrease the cooling requirement of the milk refrigeration system. The heat exchanger will use either well or ground water as the heat rejection source.	\$1,500
Dairy Compressor Heat Recovery, Electric Water Heater		All heat recovery systems that capture waste heat from the refrigeration system and transfer some of that heat into incoming well water.	\$2,000

Livestock Waterer

Equipment Type	Project Type	Eligibility	Pass-through Incentive (\$/unit)
Energy-Efficient Livestock Waterer	New Equipment and Replacement Equipment	≤ 250 Watt heater and ≥ 2 inches of insulation	\$75
Energy Free Livestock Waterer		0 Watt (no heater) and ≥ 2 inches of insulation	\$200
