2026 Incentives

FOOD SERVICE INSTANT REBATES

SAVE MONEY ON YOUR INVOICE

Skip the paperwork and receive a rebate directly on your invoice when you purchase qualifying food service equipment from participating dealers. Visit idahopower.com/instantrebates for a list of enrolled dealers.

SAVE ENERGY WITH HIGH-EFFICIENCY EQUIPMENT

Cooking appliances can account for almost 35 percent of the average restaurant's energy costs. Energy-efficient equipment can lower these bills by as much as 75 percent without sacrificing performance.*

QUALIFYING EQUIPMENT

Eligible electric equipment must be installed at a non-residential site receiving electric service from Idaho Power. For a full list of eligible equipment, contact your sales representative.

Many common makes and models of food service equipment qualify. Eligible equipment must be installed at an active, valid Idaho Power non-residential service location.

Note:

Retrofit: Specific equipment upgrades in existing facilities.

New construction: New buildings, expansion to an existing building, or a major renovation. Major renovations include adding load or changing the usage type of an existing space. It typically requires professional design services or review by code authorities.
