

Eastern Idaho Power Energy Efficiency Workshop

November 18, 2025

11 a.m. to 2 p.m.

Idaho National Laboratory (INL) Collaborative Computing Center
955 MK Simpson Blvd, Idaho Falls, ID 83401

Meeting Organizer: Matt Scheel (Idaho Power) & Scott Stultz (INL)

This half-day training introduces design/facility engineers, trade allies, vendors, and Idaho Power customers at large to the full suite of energy efficiency program offerings available for commercial and industrial facilities. Participants will learn how to leverage our resources to reduce monthly energy costs and qualify for financial incentives. The session will conclude with a technical spotlight and case study deep dive. Lunch is included.

Time	Topic	Presenter
