

Commercial and Industrial Energy Efficiency and Demand Response Workshop

Oct. 29, 2024

10 a.m. to 2 p.m.

Idaho Power Corporate Headquarters (CHQ) Auditorium or WebEx
1221 W. Idaho St., Boise, ID 83702

This class is free for Idaho Power customers.

Attendees will be introduced to the Idaho Power energy efficiency and demand response incentive programs for commercial and industrial (C&I) customers. Learn about incentive programs offered to C&I customers and how you can apply for them. The program administrators will be presenting the information and you will have an opportunity to ask questions about energy efficiency and demand response at your facility!

The class will also cover case studies from custom energy-saving projects and touch on popular energy-saving project types. Attendees will learn about several major commercial and industrial systems and how to calculate energy savings for projects.

Agenda:

10 – 11:30 a.m.	Energy Efficiency and Demand Response Program Overview
11:30 a.m. – 12 p.m.	Lunch (provided for in-person attendees)
12 – 2 p.m.	Custom Energy Saving Calculations and Case Studies

Key Learning Objectives

Attendees will learn about the following programs offered by Idaho Power and know which apply to their business:

- Retrofits
- New Construction and Major Renovations
- Custom Projects
 - Find 'n Fix
 - Cohorts (Industrial, Schools, Campuses)
 - Facility Tune-ups
 - Compressed Air Leak Repair Program
 - Water Leak Repair Program
 - Energy Management vs. Capital Projects
- Flex Peak

Attendees will also learn about energy efficiency opportunities at their facilities and learn about the calculations behind popular custom projects that include the following systems.

- Motors
- Pumps
- Fans
- Compressed air
- HVAC

- Refrigeration
- Variable-frequency drives (VFD)

We are happy to tailor this training to our customers as much as possible. If you have a certain system or topic you want us to include, let us know when you register!
